PRADIP YUVRAJ KANNOR

Java Full Stack Developer

Email: pradipkannor88@gmail.com | **Phone:** +91 9226005645 | GitHub | LinkedIn

PROFESSIONAL SUMMARY

Aspiring Java Full Stack Developer with hands-on project experience in Java, Spring Boot, React.js, MySQL, and REST API development. Familiar with microservices architecture using Eureka Server, API Gateway, Config Server, and OpenFeign. Built an AI-powered recruitment project using Spring AI and the Groq API for resume analysis, job-match scoring, and missing-skill identification. Completed 8 months of Java Full Stack training and internship at Hefshine Software.

TECHNICAL SKILLS

Programming: Core Java, SQL
Core Java: Object-Oriented Programming (OOP), Collections Framework, Exception Handling, Java 8, Multithreading
Backend: Spring Core, Spring MVC, Spring Boot, Spring Data JPA, Hibernate, Spring Security, JWT, REST APIs, Spring AI
Microservices: Eureka Server, Config Server, API Gateway, OpenFeign
Frontend: HTML5, CSS3, JavaScript, React.js, Bootstrap
Database: MySQL
Tools: Git, GitHub, Maven, Postman, Swagger, Eclipse
Cloud: AWS (Basics)

PROJECTS

HireSmart AI — AI-Powered Recruitment Platform

Tech Stack: Java, Spring Boot, Spring AI, Groq API, MySQL, Microservices

- Developed a recruitment platform with separate User, Job, Resume, Application, and AI Matching services.
- Integrated Spring AI with the Groq API to analyze resumes, identify missing skills, and provide resume-improvement guidance.
- Built an AI matching workflow to compare candidate resumes with job descriptions and return match scores and missing skills.
- Configured service discovery and routing with Eureka Server, Config Server, and API Gateway.

Relways — Railway Reservation System

Tech Stack: Java, Spring Boot, Spring Security, JWT, Spring Data JPA, Hibernate, MySQL, React.js

- Built a full-stack railway reservation application with train search, ticket booking, and train-management features.
- Implemented authentication and authorization using Spring Security and JWT, with REST APIs for application workflows.
- Managed database operations and entity relationships using Spring Data JPA and Hibernate.
- Implemented ticket cancellation with seat-availability updates and maintained payment status; no payment gateway integration claimed.

Job Portal System

Tech Stack: Java, Spring Boot, Spring MVC, Spring Data JPA, Spring Security, MySQL, React.js, Bootstrap

- Developed a full-stack job portal with user registration, login, job search, and job application features.
- Created REST APIs using Spring Boot, Spring MVC, and Spring Data JPA.
- Applied Spring Security for application security and supported application-status tracking for applied and rejected applications.

Employee Management System — Internship Project

Tech Stack: Java, Spring Boot, React.js, MySQL

- Worked on both frontend and backend development during training and internship at Hefshine Software.
- Worked with Spring Boot REST APIs for employee CRUD operations.

TRAINING & INTERNSHIP

Hefshine Software — Java Full Stack Development
Duration: 8 months (Training + Internship)

- Received a training certificate and an internship letter.

EDUCATION

Bachelor of Computer Applications (BCA) | MSG College, Malegaon — SPPU University
2022–2025 | CGPA: 8.30
